LD-16A

Specifications:

Power: 240 Volts, single phase

Air Requirement: 4-5kg/cm²

Operating Speed: 24m/min belt speed

Weight: LD16A 295kg LD16B 386kg (uncrated)

Closure Material: 38/50mm pressure sensitive tape

Options: 75mm tape, conveyor, castors, larger boxes, 3 phase electrics.

Automatic top and bottom case sealer for applications involving large runs of boxes. Box adjustments can be made in less than one minute.

LD-16A Case Sealing Uniform

Automatic case sealers fold all four top flaps as the box is sealed top and bottom. These systems can greatly reduce labour costs, increase efficiency and improve presentation. The compact design allows the machine to be installed into almost any production line.

Case Capacity

LD16A

	Minimum	Maximum
Length	203mm	610mm
